MODEL: 44630-14

Inflating Tires

•With the Tire Inflator compressor switch in OFF position, plug the Tire Inflator cigarette lighter plug into the vehicle 12V DC/DC power source.
•Check your owners manual for the proper pressure (PSI) for your tires.
•Turn the Tire Inflator compressor switch to the ON position.
•*Some vehicles require the car to be on to power the 12V DC/DC power source*.
•Screw Tire inflating adapter onto tire air valve
•As your tire is filling check the pressure gauge for the desired pressure in your tires.
•When your tire is filled turn off the Tire Inflator and **then** remove the Tire Inflator cigarette lighter plug from the vehicle 12V DC/CD power source.

NOTE: Inflates a standard tire in approximately 8 minutes. The actual time may vary depending on actual tire size and operating conditions. **Do not over inflate**.

Inflating other items

Select the suitable nozzle adaptor and secure onto the inflating adapter.
Follow items instructions for proper inflating pressure .
Please allow the inflator to rest/cool after 10 minutes of continuous use.
Recommended cool down time is 20 minutes.

Warranty Information

EuroCentra warrants the Tire Inflator to be free of defects in material and workmanship under normal household use for a period of two (2) years. If your Tire Inflator should prove to be defective within this period of time we will replace or provide a refund, at our discretion. This warranty excludes damage caused by accident, misuse or abuse, including but not limited to overheating, scratches, discoloration, stains or any other damage that does not impair the use and performance of the item.
Except where prohibited by law, this warranty excludes all incidental and consequential damages.
